

TEF-Health

SMEs Open Call

Open call for SMEs within Health AI

Fast track your access to the European Market.

TEF Health - Testing and Experimentation Facility for Health AI and Robotics - is a one-stop-shop for **accelerating** real-world testing and certification.

Apply at www.tefhealth.eu/call

Supporting AI excellence - from lab to market.

TEF-Health delivers advanced testing and experimentation services for regulatory conformity and compliance assurance.

The facility is open to SMEs that have:

A **prototype demo** of their AI system that needs testing in a real-world setting.

OR

A **market-ready AI system** and want to certify it

TEF-Health offers to SMEs:

-  **Real world testing and validation**
Ensuring practical applicability and reliability.
-  **Regulatory support**
Ensuring that your product meets all standards.
-  **Speed to market**
Ensuring rapid development and deployment of innovations.
-  **Exclusive access to healthcare institutions**
Ensuring speedy adaptation and essential feedback.
